To Our Valued Customers:

We would like to present to you the hazardous content of our RoHS compliant products (generally identified by a part number ending in “G”). These values are based upon the definitions contained in the EU Directive 2011/65/EU and the China MII Order #39 as of the date of this declaration.

Please contact your local authorized ZiLOG Sales Representative if help is needed to cross-reference the generic package style to the specific product ordered.
